PROFESSIONAL SUMMARY

Cloud Architect and Full-Stack Developer with 4+ years of hands-on experience in AWS cloud migration, system administration, and full-stack development. Specialized in helping organizations modernize infrastructure, migrate legacy systems to cloud platforms, build scalable digital solutions, manage databases, and provide technical support across educational and commercial environments.

PROFESSIONAL EXPERIENCE

STARZ University

Aug 2022 – Present

IT Support & Systems Administrator, Volunteer · Monrovia, Liberia

- Migrated university student record systems and digital resources to AWS cloud infrastructure, reducing operational costs by 90%.
- Enabled 24/7 remote access for students and faculty and maintained 99.9% uptime for the Starz App mobile application.
- Troubleshot backend systems and resolved technical issues for over 15,000 students and faculty.
- Collaborated with university administration to deploy secure student databases and improve institutional IT infrastructure.
- Reduced average support resolution time from 6 hours to 2 hours through systematic troubleshooting protocols.

Global Portfolio

2021 – Present

Senior Digital Strategist & Facebook Page Analyst · International & Domestic

- Manage 30+ monetized digital media platforms with a combined audience of 15M+ followers worldwide.
- Develop engagement, compliance, branding, and monetization strategies.
- Analyze audience behavior and platform performance using Meta analytics.
- Optimize digital growth and content performance; support international monetization strategies.
